Global Leading PV Inverter Solutions Provider

Acquired Solar Division of

Fortune 500

Sineng Electric (Stock Code: 300827) is a leading global high-tech enterprise specialized in power electronics products covering its business in power generation, power supply, distribution and power utilization fields. With advanced R&D, manufacturing, marketing, maintenance and service departments, it provides customers a wide range of solar inverter, energy storage and power quality control solutions. Acquiring the inverter business of Fortune 500 company in 2014, Sineng Electric has obtained the world-class power electronics technology platform.

R&D division is considered as the backbone of its leadership in market that's why company has established two R&D centers located in Shenzhen and Wuxi, an enterprise technology center, an enterprise academician workstation, a post-doctoral innovation practice base and a CNAS certification laboratory. The company possesses in-house testing center and a dynamic R&D team. In addition to Wuxi industrial park, Sineng has established a factory in Bangalore, India in 2018 to meet exponentially increased local demands.

Sineng will continue working on technological innovation to ensure cutting edge solution and best service.

EP Series 1500V Outdoor Central Inverter

More power generation

Max. efficiency 99%, Euro efficiency 98.7%
Advanced three-level technology
Max.DC/AC ratio up to 1.8

Low system cost

DC 1500V system, low system cost
Outdoor design without container Convenient
for large block size PV plant
IP65 Protection

High reliability

Capacitor life prediction technology
Key components at front side, easy for maintenance
Current sensor for each DC input, more reliable for
monitoring and control

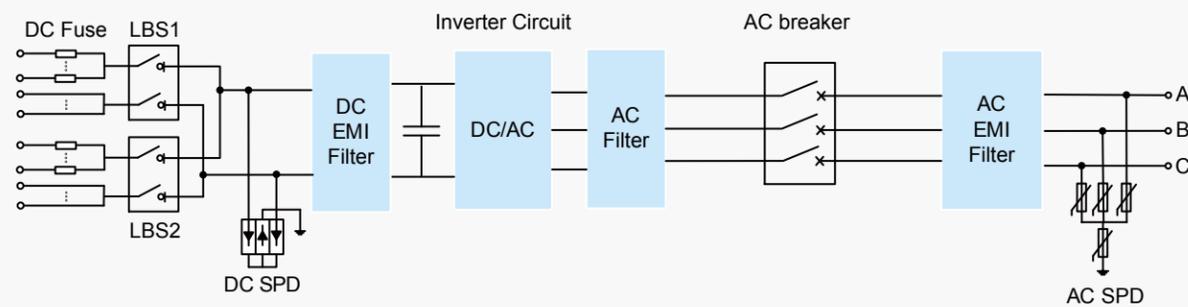

Grid friendly

LVRT and HVRT function
Active & reactive power dispatch

 12MPPTs for tracking maximum PV power
 Supports bifacial PV modules with max. PV current 15A

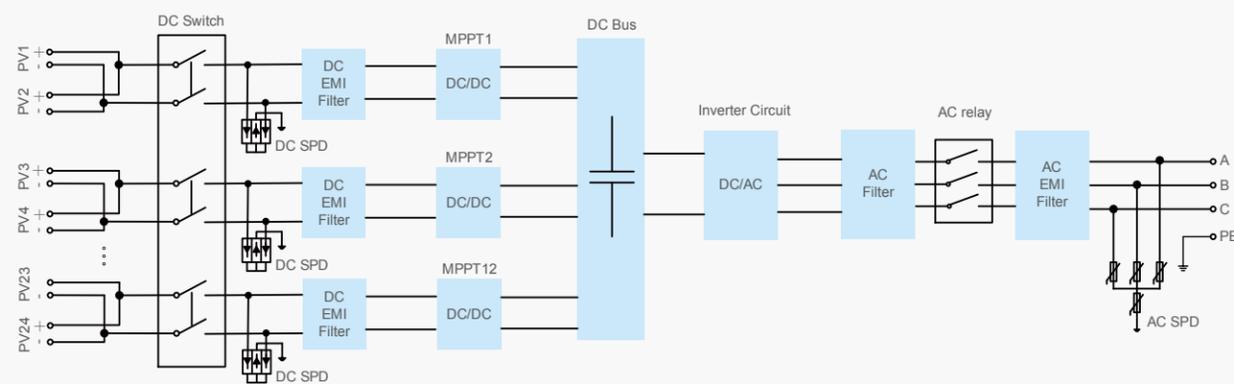

Low system cost
 Up to 24 PV strings
 Support aluminum cable access, saving cable costs
 Support PLC communication, save communication cable

High reliability
 Cooling fan with IP68 protection level
 Integrated string monitoring function
 Standard connection terminal for quick installation

Grid friendly
 Active power derating and reactive power adjustable
 Low harmonics and fast response for grid regulation
